

About Us

TECCRO is more than just a clinical research organization; it is an innovative extension of The Esthetic Clinics, deeply committed to understanding and meeting patient and industry needs.

Our relentless focus, distinct methodology guided by a clinician's sagacious perspective, patient-centric approach, and ethical research—all of which exceed global standards—set us apart from other CROs.

We have registered evidence-based data-sets contributing to over 100 major research papers and scientific publications in prestigious international journals indexed by PubMed.

The Esthetic Clinics Clinical Research Organization has its own recognized and registered ethical committee that is DCGI and CDSCO certified (a National Regulatory Authority for Indian Pharmaceuticals and Medical Devices).

How Are We Different?

- We implement cutting-edge clinically proven approaches
- We prioritize research that is driven by innovation
- We support organizations in providing research-backed, quality-piloted advanced products and processes

Why Are We the Preferred Clinical Research Organization?

- Over 100 years of domain expertise in facial surgery, dermatology, plastic surgery, cosmetic surgery, and cosmetology/aesthetics
- Patient-centric approach
- Presence in 6+ cities that aids in providing access to diverse demographics for robust trial outcomes
- Customized solutions tailored to each client's strategy, utilizing cutting-edge technologies
- Enhanced value by going beyond basic trial services and providing strategic insights for trial enhancement
- Advanced research facilities meeting international standards

Our Values:

- Dedicated to excellence, right from study design to data analysis and reporting
- Conducting all our activities with the utmost integrity, ensuring transparency, honesty, and adherence to ethical standards
- Embracing innovative technologies and methodologies to enhance the quality and efficacy of our research
- Believing in the power of collaboration and working closely with our clients, partners, and stakeholders to accomplish common goals

Services:

We offer a wide spectrum of clinical research services tailored to meet the unique needs of our clients and industries:

- Study Design and Protocol Development
- Site Selection and Management
- Regulatory Affairs
- Clinical Monitoring
- Data Management and Biostatistics
- Medical Literature
- Patient Recruitment and Retention

6 large investigator initiated trials undertaken

4 on-going industry sponsored trials

With clinical acumen & therapeutic area expertise in:

- Facial surgery
- Cosmetology
- Plastic surgery
- Cosmetic surgery
- Dermatology
- Aesthetics

Our research has led to a life-changing treatment for hair-growth
Treated over 150,000 patients across the globe

Let's Join Hands

We are passionate about advancing medical sciences and enhancing patient care. Whether you are a sponsor, partner, or participant, we invite you to join us on our journey to make a significant impact on the global health-care system.
